

## Job Board: Searching for Summer Jobs and Internships

Overall employment and seasonal summer work are on **an upward trend**. That's great news!

But how are Workforce Boards meeting the demand? We recently met with several workforce teams to learn more about their summer employment goals and data needs. One key request – pinpointing suitable openings at growing companies. Here are some of the EconoVue™ tools and solutions that are working for them:

### SUMMER INTERNSHIPS

The LocalVue app gives you direct access to job postings in your city.

Use the search term 'Intern' or 'Apprentice' to find corresponding indeed.com job postings in your area. The search results will contain any posting in the last two weeks containing your search term within the job title or description.

### SEASONAL SUMMER JOBS

RegionVue drill-down menus provide broad lists of jobs by sector and occupation.

Utilize the industry sector menus in RegionVue to zoom in on the typical occupations associated with seasonal summer jobs for teens and college students. Click the [Jobs/Training tab](#) for current job postings. Here are a few NAICS codes to start your search:
